Transportation Coordinator's Automated Information for Movement System II

Description

Transportation Coordinator's Automated Information for Movement System II (TC-AIMS-II) is a joint, Army-led, Acquisition Category I(A)M automated information system, which is used for unit deployment planning and execution, traffic management, and movement control and coordination. TC-AIMS II supports the Department of Defense mission areas of deployment and mobility.

Operational Impact

When fielded, TC-AIMS II will facilitate the deployment, sustainment, and redeployment of Marine Corps forces, as well as any joint forces assigned to a Marine Corps-led Joint Task Force (JTF). In theater, the system facilitates reception, staging, and forward movement.

Program Status

TC-AIMS II is currently in the Test and Evaluation phase for Block Two. Operational testing for TC-AIMS II was held in April and May 2004 for Army and Navy units. Marine Corps testing has not been scheduled at this time. Testing will occur in Stafford, VA, when scheduled.
